

**Harmony-** Harmony is often a vocal technique that is used to emphasize certain words, phrases or stanzas in a song, wherein two or more voices sing simultaneously in harmonic intervals of each other. An easy way to figure out basic harmony, is to take a melody's first note and count two notes up or down on the scale from it. For example, if the first note in a melody is C, an easy harmony would be to sing C together with E. (see harmony cheat-sheet)

### HARMONY CHEAT SHEET:

**OR:** Do Re Mi Fa Sol La Ti Do

**“the easy third” :**

every other *major* note, when sung together, produces a harmony
